

INNOVATING FOR YOU. WITH YOU.

CHLOROPHYLL

The word 'CHLOROPHYLL' is rendered in large, white, sans-serif capital letters. Each letter is filled with a different green food item: 'C' is a glass of green juice, 'H' is a green cookie, 'L' is a green cookie, 'O' is a green cookie, 'R' is a green burger, 'O' is a green cookie, 'P' is a green cookie, 'H' is a green cookie, 'Y' is a green cookie, and 'L' is a green cookie. The background is a solid green color with various green food items and leaves scattered around the text.

Naturally Green

CHLOROPHYLL E141(I)

Chlorophyll is the green pigment found in leaves, grass, vegetables and all organisms capable of photosynthesis. The principal pigment is E140 Chlorophyll, however this is relatively unstable with weak coloring intensity. Often, the product is treated with copper salts to render E141 Cu Chlorophyll which has a more vibrant shade and greater stability.
